|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Software Development | JavaScript, HTML, CSS, Python, C#, Kotlin, Java, PHP, Swift, React, React Native, Android Studio, Visual Studio Code                                              |
| Design & PM          | Figma, Adobe Suite, Canva, Accessibility, Jira, GitHub Projects, Slack, Agile/Sprint Planning, Technical Writing, Competitive Analysis, Stakeholder Communication |
| Systems              | Node.js, C# / .NET, MongoDB, JSON, SQL, Prisma ORM, REST APIs, OAuth, IoT, Git, Docker, Linux, SSH, AWS, Hardware Repair and Maintenance                          |
| Sustainability       | LCAs, SimaPro, GHG Protocol, Waste Management, Circular Economy strategy, DfD                                                                                     |
| Data & GIS           | Excel (advanced), ArcGIS, Leaflet, Remote Sensing, Data Visualization, Survey Design                                                                              |
| Soft Skills          | Leadership, Facilitation, Public Speaking, Customer Service, Instructing, Teamwork, Crisis Response, Community Building and Outreach                              |

## PROFESSIONAL EXPERIENCE

### Circular Economy Specialist | Michigan State University CCED — AmeriCorps VISTA

Jul 2025 – Present • Lansing, MI

Conduct research and gather datasets for state-level policy planning and resource allocation. Produce technical reports and data visualizations to communicate findings effectively. Design community needs surveys to pinpoint program gaps and opportunities. Spearhead stakeholder outreach and public engagement, fostering partnerships. Coordinate waste diversion initiatives and monitor compliance across various programs.

- Conducted extensive research to inform policy decisions.
- Developed impactful data visualizations for stakeholder presentations.
- Designed surveys to enhance program effectiveness.
- Coordinated compliance tracking for waste initiatives.

### Full Stack Developer | LookingForGroup App — Entrepreneurship Co-Op

Jun 2025 – Dec 2025 • Remote

Developed and enhanced React/TypeScript frontend features, boosting user experience and engagement. Redesigned backend schema with SQL and Prisma ORM for better data organization. Implemented OAuth authentication, enhancing application security. Conducted integration testing and resolved critical production bugs, increasing system stability.

- Optimised frontend features for improved user engagement.
- Enhanced backend schema for efficient data queries.
- Strengthened security through OAuth implementation.
- Resolved critical bugs to ensure system stability.

### Marketing & Brand Specialist | Fallen Star Studios — Entrepreneurship Co-Op

Feb 2025 – Nov 2025 • Remote

Developed company website with HTML, CSS, and JavaScript, enhancing online visibility. Analyzed user feedback from surveys and interviews to pinpoint product improvement areas. Oversaw brand presence across multiple social media platforms. Executed competitive analysis to guide strategic and product decisions.

- Improved online presence through website development.
- Identified product enhancement opportunities via user feedback.
- Maintained cohesive brand identity across social channels.

- Informed strategic decisions with competitive insights.

## Teaching Assistant | *Rochester Institute of Technology*

Feb 2025 – May 2025 • Rochester, NY

Assisted in teaching frontend (IGME 330) and backend (IGME 430, Node.js) web development courses for three sections. Facilitated student understanding of debugging, architectural decisions, and full-stack development. Strengthened knowledge of React, REST APIs, and server-side logic.

- Supported three course sections, enhancing student engagement.
- Guided students in troubleshooting and development processes.
- Reinforced understanding of key web technologies.

## Hydroponics Project Leader | *Engineers for a Sustainable World — RIT ESW Club*

Jan 2022 – May 2025 • Rochester, NY

Directed development of a self-sustaining hydroponics system from concept to implementation. Facilitated team communication and organised weekly build sessions across a distributed team.

- Established project goals and milestones.
- Implemented innovative solutions to enhance system efficiency.

## Full Stack Developer & Team Leader | *Cary Collective / The Strong National Museum of Play — Capstone*

Oct 2024 – Apr 2025 • Rochester, NY

Architected and developed a full-stack system integrating web, database, and hardware components. Coordinated Agile sprint planning for a team of 4–10 developers using Jira and GitHub. Delivered a live interactive trivia game engaging 600+ participants at launch. Presented project outcomes to stakeholders, securing continued investment and approvals.

- Spearheaded system architecture and development.
- Facilitated Agile processes, enhancing team productivity.
- Executed a successful trivia game launch.
- Engaged stakeholders to drive project funding.

## Team Leader – Farm Manager | *Taproot Collective*

Jun 2024 – Aug 2024 • Rochester, NY

Oversaw educational programming for high school students on food justice and sustainability. Conducted workshops addressing teamwork, job readiness, and community engagement. Coordinated team activities and provided mentorship for collaborative projects.

- Developed innovative curriculum enhancing student understanding of sustainability.
- Increased student participation in workshops by 30% through targeted outreach.
- Fostered a supportive learning environment, leading to improved student outcomes.

## Zero Waste Specialist | *RIT Office of Sustainability*

Oct 2023 – Apr 2024 • Gene Polisseni Center, Rochester, NY

Educated guests and vendors on waste sorting and sustainability practices at live events. Facilitated composting initiatives, diverting 5,833 lbs of organic waste from landfills. Supported the inaugural operational sustainability team at the arena.

- Championed waste management education for event attendees.
- Drove composting efforts, significantly reducing landfill contributions.
- Collaborated with a pioneering sustainability team to enhance operational practices

## Communications Specialist | *Honokowai Beach Park ‘Ohana*

Aug 2023 – Aug 2023 • Lahaina, HI

Crisis management; communication; social work; networking. An unexpected and pivotal experience in my life, I helped my community access aid and connect with government relief programs after the Lahaina, Maui fires. This inspired me to pursue nonprofit work and support communities in need and ensure I do everything I can to help.

## EDUCATION

### B.S. New Media Interactive Development (Computer Science) — Class of 2025

*Rochester Institute of Technology* • Minor: Sustainable Product Development

Activities: Beekeeping Club Interim President (4 yrs), Fowl Play Improv Comedy Troupe (4 yrs), Student Government Sustainability Committee (3 yrs), Soil & Plants Club Secretary (2 yrs)
